Welcome **Aboard**

*"Alone you can do a lot of things, but **together** you can do things which you only dreamed of"*

- Kushal & Ram -

The Founders

Founded in 2017 by two visionary individuals, Kushal and Ram, ActiSoft is an innovative IT company driven by a passion for technology and a commitment to excellence. With a diverse background that combines the technical expertise of a BTech engineer with the financial acumen of a BCom accountant, ActiSoft was born with a vision to provide cutting-edge IT solutions that seamlessly integrate the worlds of technology and finance.

ActiSoft's journey began with the simple belief that technology has the power to transform businesses, streamline operations, and enhance efficiency. With this conviction in mind, Kushal and Ram embarked on a mission to harness the potential of IT to empower businesses across various industries.

About **Actisoft**

Over the years, ActiSoft has evolved into a trusted partner for organizations seeking innovative IT solutions. Our dedication to staying at the forefront of technological advancements has allowed us to offer a wide range of services, from software/Website development and cybersecurity to cloud computing and data analytics.

At ActiSoft, we are proud of our diverse and skilled team of professionals. Our engineers, developers, analysts, and consultants are not just experts in their respective fields but also share a common commitment to delivering exceptional results. We believe that the strength of our company lies in the talent and dedication of our team members.

-Our Values-

1. ****Innovation****: We embrace innovation and constantly seek out new technologies and approaches to solve complex problems.
2. ****Quality****: Our commitment to delivering high-quality solutions sets us apart. We believe that quality should never be compromised.
3. ****Client-Centric****: Our clients are at the heart of everything we do. We work collaboratively to understand their unique needs and provide tailored solutions.
4. ****Integrity****: We conduct business with the utmost integrity and honesty, ensuring the trust and confidence of our clients.
5. ****Continuous Improvement****: We are dedicated to continuous improvement in our processes, skills, and services to adapt to the evolving IT landscape.

-Our Vision-

ActiSoft envisions a future where businesses of all sizes can harness the full potential of technology to thrive and excel in an increasingly digital world. We are committed to helping our clients achieve their goals through innovative IT solutions that drive growth, enhance security, and optimize operations.

Join us in shaping a digitally empowered future with ActiSoft as your trusted IT partner.

Market Statistics

There are more than three billion smartphone users across the globe, and the number is expected to rise in the coming years. This increase in demand for smartphones has also catalysed the growth in demand for mobile apps and its development.

Website Statistics (Top Picks)

While there are 2 billion websites in the world till 2023. Assuming you read 300 words per minute (WPM), by the time you finish reading this article, 200 websites have been created.

A staggering 93% of global traffic comes from Google, making it the dominant search engine in the world.

71%

Businesses have a website in 2023

This is an increase from previous years, the Covid-19 pandemic has accelerated the trend of businesses establishing a web presence, and it is likely that this trend will continue into the future. According to recent research, 43% of small businesses are planning to invest in the performance of their website in 2023.

The time it takes for users to form an opinion about a website is incredibly brief—just **0.05 seconds**. This means that first impressions matter a great deal and websites need to be designed to make a strong impact in a very short amount of time. A well-designed website that is easy to navigate and provides a positive user experience can go a long way in retaining visitors and potentially converting them into customers.

Creative Team

Experts and highly skilled professionals, as a team always make a tremendous difference. We have a dynamic team of web development, website designing and Seo specialists who are the market leaders in their respective domains.

Narendra Jhuriya

Manager

As a manager at an IT company, you would hold a critical role in leading and overseeing various aspects of the organisation's technology-related operations.

Narendra is an accomplished and forward-thinking IT manager at Actisoft, bringing 3 years of experience in the field of information technology to the team. Known for a unique blend of technical expertise, strategic vision, and exceptional leadership skills, narendra plays a pivotal role in driving our company's success.

A leader is one who knows the way, goes the way, and shows the way.

John C. Maxwell

Mamatha P

Business Analyst

Evaluating business processes, anticipating requirements, uncovering areas for improvement, and developing and implementing solutions. Leading ongoing reviews of business processes and developing optimization strategies. Mamatha Carefully assesses and analyzes any and all business implications that may be involved.

Sourav Sharma

Data Analyst

Interpreting data, analyzing results using statistical techniques. Developing and implementing data analyses, data collection systems and other strategies that optimize statistical efficiency and quality.

Akshay Bhagat

Process Associate

Analyzing existing processes and advise on system upgrades, perform regular equipment maintenance, maintain inventory and supplies, ensure product quality, and compile process reports for the production manager.

Great things in business are never done by one person. They're done by a team of people.

Actisoft 1 anniversary.

#Teams who party together, stays together.

”

*Creativity is just connecting things. When you ask creative people how they did something, they feel a little guilty because they didn't really do it, they just saw something. It seemed obvious to them after a while. That's because they were able to connect **experiences** they've had and synthesize new things.*
